

# A NEW MODERN CLASSIC

## Introducing Teel by Phoenix

The international award-winning design team of Phoenix Tapware have developed a brand-new collection comprising of mixer taps, shower mixers and outlets. Unique in design, Teel is all about proportion, form and creating that perfect balance so that the tapware stands the test of time.

"Teel originated through the exploration of how two shapes organically flow together" said Phoenix's Senior Designer, Ban Liu, "I started to blend an oval into a circle which resulted in the basis of Teel's unique, dynamic form." The Teel design is an elegant, slender tapware collection and with its timeless qualities, would easily integrate into many bathrooms and kitchens of today.

The products offered in this collection include:

- Teel Basin Mixer
- Teel Vessel Mixer
- Teel Sink Mixer
- Teel Wall Basin / Bath Mixer Set
- Teel Wall Basin Outlet
- Teel Wall Bath Outlet
- Teel Shower / Wall Mixer
- Teel Shower / Bath Diverter Mixer

To complete the look, Teel is available in four finishes – Chrome, Brushed Nickel, Gun Metal and Matte Black. These trending finishes make the collection versatile and easily placed within a wide range of interiors. To minimise wait times, all finishes are kept in stock within Phoenix's warehouses.

Teel, like all of Phoenix's products, is manufactured to a high quality. Precision and durability are no exception when it comes to this collection. Phoenix offers a 15 year warranty period on the cartridge, 7 years on product, parts and finish, and 1 year on labour for the entire Teel collection.

Liu reflects "When I think of Teel, two words come to mind – fine and slender. I wanted to convey sophistication and draw on my manufacturing knowledge to create seamless, highly finished tapware designs which are pleasing to the eye." He continues, "Every element has been considered to keep the profile slender and in proportion – body, internal cartridge, aerator, outlet height and width, back plate shape and handle design."

Phoenix Tapware nurtures Australian talent and is a strong advocate of creating uniquely designed taps, mixers, showers and accessories. Throughout their nearly 30-year history, Phoenix has grown to be a leader within the Australian plumbing industry, winning multiple awards as recognition of their commitment to excellence and innovation.
